

Aveline Chair

Graceful in form and versatile in function, the Aveline Chair brings timeless European character to indoor and covered outdoor settings. Crafted from powder-coated iron with delicate scroll detailing, gently curved arms and an arched slatted back, its sculptural silhouette feels equally at home around a dining table or on a covered verandah.

Designed for everyday living, Aveline pairs durability with understated elegance. The removable upholstered seat cushion ties to the frame and offers comfort for long lunches, while the powder-coated iron frame is built for covered outdoor use.

Suitable for indoor and covered outdoor use.
Not recommended for fully exposed positions.
