

Isla Round Dining Table | Spanish Beige Marble

The Isla Round Dining Table is reimaged in Spanish Marble, pairing a hand-tiled surface of Spanish Beige Marble with a sculptural stone pedestal base rich in organic texture. Inspired by the raw beauty of natural landscapes, the design celebrates the contrast between refined craftsmanship and the untamed character of stone.

The generous round top showcases the soft tonal variation, movement, and depth unique to Spanish Beige Marble. Hand-applied stone tiles create subtle texture across the surface, while the rounded edge profile lends a sense of softness and balance to the substantial form.

Available in 52" and 63" sizes.
Assembly Required.
