

# Miro Chest of Drawers | Spanish Beige Marble

A continuation of the Miro language- expanded in scale, grounded in material. Crafted in Spanish Marble, the dresser carries a soft, tonal surface with natural variation across each panel. The stone introduces depth and movement, giving the piece a quiet complexity that shifts subtly throughout the day.

Six drawers are integrated into a clean, horizontal composition. Each drawer sits flush within the form, maintaining a consistent facade while offering generous storage. The layout is structured and practical, without disrupting the visual rhythm of the piece.

Assembly Required.

Materials: Spanish Beige Marble  
Hollow timber frame
