

Miro Bedside Table | Spanish Beige Marble

A compact expression of the Miro form- refined, grounded, and quietly sculptural. Crafted in Spanish Marble, the surface carries soft tonal variation and natural movement, giving each piece its own subtle character. The material brings depth without excess, allowing the form to remain clean and resolved.

Two drawers are integrated seamlessly into the structure, maintaining a flush, uninterrupted facade when closed. Designed for everyday function, they offer considered storage while preserving the integrity of the silhouette.

Assembly Required.
