

Pedro Chair

The Pedro Outdoor Chair is a sculptural seat with a softly arched back and rounded legs, cast in concrete for life outdoors. Its pared-back form sits easily on a patio, in a backyard or by the pool, and pairs naturally with the Pedro Round and Oval Outdoor Dining Tables.

Built to weather the elements, each chair is finished with a smooth matte surface that carries the subtle variation of a hand-finished piece.

No assembly required.

- Product Details:
- Cast concrete construction
 - Smooth matte hand-finished surface with natural variation
 - Designed for outdoor use
